

Book Locker Agreement

Capistrano Unified School District

A book locker will be assigned for all students upon request at middle schools and high schools where lockers are available. **The school reserves the right to open and search student lockers with or without the students' knowledge and/or presence.**

1. The school accepts no responsibility for items damaged, lost or stolen from lockers. Textbooks, school materials and personal items are the responsibility of the students. **Students will be held accountable for the replacement cost of all missing or damaged school materials.**
2. One locker with one locker combination will be assigned for the school year.
3. In any case where the school required that students share lockers, there will be two students to a locker. In this case, we recommend students either accompany their locker partner to registration.
4. There is a fee of \$10.00 for removing books from lockers at the end of the year if they are not turned in.

It is recommended that each student keep school materials and personal items in his/her possession and forgo the use of a book locker. Students should never bring more than \$5.00 to school as the security of book lockers cannot be guaranteed. If you have any questions regarding book lockers please contact your school's office.

Please note that your signature on the Student Information Card or your indication in the Parent Portal verifies that you have read, understood, and are willing to accept ALL liability regarding the use of a book locker.
